NQUTHU LOCAL MUNICIPALITY DRAFT IDP AND BUDGET AND PROCESS PLAN FOR 2022/23 FINANCIAL YEAR

1. Introduction

Chapter 05 of the Municipal Systems Act (MSA) prescribes all the procedures that have to be followed when the Integrated Development Plan (IDP) is developed and/or reviewed by the municipality. Section 28 of MSA specifically prescribes how the actual process to guiding the development and/or review of the IDP should be structured and managed. This Process Plan outlines the processes, in a narrative and table formats, for the development of the IDP in relation to the following aspects:

- Public participation requirements as outlined in Chapter 04 of MSA;
- Compliance with all applicable legislative requirements;
- Roles and responsibilities of different structures and role-players;
- Terms of reference for the IDP Steering Committee and IDP Stakeholders Representative Forum;
- Alignment with the national and provincial government as well as the district municipality (alignment to the Umzinyathi DM Framework Plan), and
- The relationship and/or alignment between the IDP, budget and performance management system and also all spatial planning requirements in the form of SDF.

2. Terms of Reference for the IDP Steering Committee and IDP Stakeholder Representative Forum

2.1. IDP steering committee

Section 30 of MSA provides that:

“The executive committee or executive mayor of a municipality or, if the municipality does not have the executive committee or executive mayor, a committee of councillors appointed by the municipal council, must, in accordance with Section 29-

- (a) Manage the drafting of the municipality’s integrated development plan;*
- (b) Assign responsibilities in this regard to the municipal manager, and*
- (c) Submit the draft plan to the municipal council for adoption by council.”*

In respect of the above legislative requirements, there shall be an IDP and budget Steering Committee that shall be composed and function as follows:

Composition:

- The Mayor and Deputy Mayor of a municipality;
- The executive committee members who are chairpersons of portfolio committees;
- The municipal manager and manager in the office of the municipal manager;
- All Section 56 managers of a municipality (commonly referred to as Directors), and
- The IDP/PMS Manager of a municipality.

Functions:

- Ensure compliance with all applicable legislative requirements;
- Ensure adherence to and/or implementation of the process plan and the provincial IDP management plan;
- Receive, analyse and consolidate inputs from different internal departments and external stakeholders;
- Ensure the alignment of IDP and budget;
- Consider public comments and MEC letter;
- Approve the first and final IDP draft for submission to municipal council, and
- Ensure the overall credibility of the IDP.

Roles and responsibilities

Roles and responsibilities	
Mayor	Provide political direction to the IDP drafting process.
Deputy Mayor	Work with and support the Mayor and assume all the duties of the Mayor in his absence.
Executive committee members	Work with section 56 managers to make inputs in all matters concerning their portfolios.
Municipal Manager	Chair steering committee and provide leadership and direction on all administrative matters.
Manager in the office of the Municipal Manager	Represent all the units within the Office of the Municipal Manager including IDP/PMS, internal audit, communications, youth development and risk management.
Section 56 managers	Provide technical details and make proposals on all matters concerning their departments.
IDP/PMS Manager	Make all necessary preparations for the meeting including agenda preparations and invitations and submit progress

	reports on IDP preparation.
--	-----------------------------

2.2. IDP Stakeholder Representative Forum

The municipality has, after careful consideration, decided to incorporate the IDP Stakeholder Representative Forum into the Operation Sukuma Sakhe programme through its Local Task Team (LTT) which is representative of all stakeholders and meet on a monthly basis. In actual fact, the IDP Stakeholder Representative Forum as a structure has been collapsed in favour of utilizing the already existing and functional LTT as a representative structure for purposes of consultation and engagement on all IDP related matters. The rationale for this decision is explained below as follows:

- The LTT is functional and representative of the majority of stakeholders that are ordinarily part of the IDP Stakeholder Representative Forum and as a result of this fact having both structures actually constitutes duplication;
- Most stakeholders, especially sector departments, have time constraints which make it difficult for them to make time for the forum which makes it even less representative and less effective;
- The municipality is already represented in the LTT because its secretary is one of the officials of municipality and its champion is the Mayor, so already the municipality plays a very important role in the LTT, and
- Having the IDP unit being represented and actually having an item in every LTT meeting will benefit and broaden the consultation and engagement process and, in addition to that; integrate and enhance how the municipality and other stakeholders, especially sector departments, consult and engage the public.

Composition:

- All members of municipal council (councillors);
- The municipal manager, section 56 managers and middle management (attend on a quarterly basis);
- Representatives of all sector departments;
- Representatives of state owned companies;
- All secretaries of ward committees (attend on a quarterly basis);
- All community development workers;
- Representatives of all non-governmental organizations operating in the municipality;

- Representatives of all social sectors (Youth, Women, Disabled, Elderly);
- Representatives of Nquthu rate payers;
- Business (informal and informal and the taxi industry), and
- Any other stakeholders as determined by the municipality.

Functions:

- Provide a platform for the municipality to present its plans and programmes to all stakeholders;
- Provide a platform for all stakeholders to express their views and engage the municipality;
- Provide a platform for different stakeholders within the municipality to share information, and
- Provide a platform for different stakeholders to coordinate and integrate their programmes so that they work in a manner that avoid duplication and complement each other to maximize the impact of all programmes or projects.

NB: the LTT shall develop the terms of reference that will enable it to also act as the forum and adopt those terms of reference as part of the finalization of the IDP Process Plan.

Roles and responsibilities

Roles and responsibilities	
Mayor	Chair the IDP Representatives Forum and provide political direction.
Deputy Mayor	Work with and support the Mayor and assume all the duties of the Mayor in his absence.
Traditional leaders	Provide wisdom and make inputs on behalf of the institution of traditional leadership and also provide direction and support on matters pertaining to land and culture.
Executive committee members	Work with section 56 managers to make inputs in all matters concerning their portfolios.
Municipal Manager	Represent municipal administration and provide leadership and direction in all administrative matters.
Manager in the office of the	Represent all the units within the Office of the Municipal
Municipal Manager	Manager including IDP/PMS, internal audit, communications, youth development and risk management.

<i>Section 56 managers</i>	Provide technical details and make proposals on all matters concerning their departments.
<i>IDP/PMS Manager</i>	Make all necessary preparations for the meetings including agenda preparations, logistical arrangements and invitations and also submit progress reports on IDP preparation.
<i>Middle managers</i>	Support their heads of departments with all required technical information and responses.
<i>Ward Councillors</i>	Represent their respective wards.
<i>Secretaries of Ward Committees</i>	Assist and work with the ward councillor in representing the ward committee and articulating the needs of the wards.
<i>Representatives of sector departments</i>	Represent their respective departments and make presentations about all their current and planned programmes and projects.
<i>Umzinyathi DM IDP Manager</i>	Represent the district municipality and ensure that relevant District officials, especially in the field of water and sanitation, do attend and provide required information.
<i>Representatives of the business sector (formal and informal)</i>	Represent local business people and make inputs of their behalf.
<i>Representatives of rate payers association</i>	Represent rate payers and make inputs of their behalf.
<i>Representatives of NGOs/NPOs</i>	Represent their NGOs and make presentations about all their programmes and projects.
<i>Community Development Workers</i>	Provide all the required information about their work and plans and make necessary inputs.
<i>Representatives of social sectors (Youth, Women, Elderly, Disabled, etc)</i>	Represent their sectors and make inputs on their behalf.

3. Mechanisms for public participation

In its IDP and SDF review, Nquthu LM will embark on an extensive public participation exercise to ensure that the residents of Nquthu have a say on the development path that the municipality takes. Chapter Four (4) of MSA outlines an obligation of a municipality to ensure that proper and clear mechanisms for public consultation are in place and are utilised effectively.

Public consultation shall be conducted in the following manner:

- **Operation Sukuma Sakhe (LTT):** this forum consist of all stakeholders that have a role to play in the development of Nquthu in one way or the other, including but not limited to; sector departments, NPOs, business, traditional leadership, ward committees, etc. This forum shall be convened at least on a quarterly basis to provide a platform for engagement and sharing of development information and also devise ways of working together and/or identify areas of cooperation.
- **IDP and SDF specific consultation processes:** the comprehensive SDF review will be undertaken by a competent service provider with adequate capacity for a period of 18 months so that a fully compliant and credible SDF is produced. However, every aspect of the SDF that has been reviewed shall incorporated into the existing document so that it is tabled to Council for approval together with the IDP. After a comprehensive review has been done, annual reviews shall be undertaken internally afterwards.
- **Ward Committees (WBPs review):** the municipality will use Ward Committees as an instrument of IDP formulation process through the annual review of WBPs which will be led by councillors. The public be informed in advance so that they participate in WBPs annual review which will actually determine the IDP priorities as far as wards are concerned.
- **IDP Roadshows:** in addition to invitation of public comments, the municipality also conduct a roadshow wherein all wards shall be represented and shall be done in conjunction with Umzinyathi DM in order to save costs.

4. Vertical and horizontal alignment

The development mandate of the municipality cannot be successfully realized without properly aligning its plans and programmes with those of sector departments, the district municipality and all other development stakeholders. The municipality will also align itself to neighbouring municipalities.

In light of the above, the municipality will align itself as outlined in the table below:

Vertical alignment	<ul style="list-style-type: none"> • Utilise the LTT as the main platform of horizontal alignment since sector departments are part of this forum; • Consider and analyse all the legislative and/or compliance matters championed by different sector departments to ensure that the municipality and also engage sector departments about their programmes and plans especially within Nquthu so that areas of cooperation are identified, and • Ensure that the municipality fully participate and take advantage of all government programmes and/or campaigns aimed at job creation championed nationally or provincially, e.g. Operation Vula.
Horizontal alignment	<ul style="list-style-type: none"> • The municipality will utilise Umzinyathi DM platforms as the foremost instruments for horizontal alignment, namely; the IDP-LED Technical Committee and the Joint Project Steering Committee;

	<ul style="list-style-type: none"> • The Umzinyathi DM shall also be invited at the municipality’s IDP Stakeholder Representative Forum, and • The Umzinyathi DM has undertaken to organise alignment meetings with neighbouring municipalities for purposes of creating a platform for cross-border alignment, therefore; in addition to studying the planning documents of neighbouring municipalities, Nquthu LM will also utilise that platform to ensure that it properly aligns with neighbouring municipalities.
--	---

5. Cost implications for IDP review

The municipality’s IDP review is conducted internally and R885 000 have been budgeted to drive all IDP review programmes, including catering for IDP Stakeholder Representative Forum and also funding all public consultation processes.

6. Addressing MEC concerns

When the MEC issues IDP assessment letters to municipalities, the purpose for that is twofold; (1) to identify weaknesses and areas of improvement as far as the overall governance, management and institutional development of the municipality is concerned and (2) to identify weaknesses and areas of improvement with regard to how the IDP itself is structured and compile in order to improve its credibility. Therefore; As outlined in the time-schedule table, all the issues raised in the MEC letter shall be attended to be convening a workshop of all municipal departments so that action plans to address issues raised by the MEC can be made so that all of those issues are addressed at an institutional level and also reflected on the 2019/20 IDP review.

7. Public consultations on the process plan

Notices inviting public comments were issued through the following mediums:

- An advert was put on the Ilanga newspaper;
- Notices were put on all municipal libraries, municipal offices and Traditional Courts, accompanied by copies the draft process plan, and
- The draft process plan was put on the municipal website.

After Council approves the final process plan, it will be put on the municipal website for public information and also forward an electronic copy to COGTA as required.

8. Spatial Development Framework review

The overall aim of the project is to ensure that the SDF provides for a vision and strategies which are implementable in order to change space for the greater good of all in the municipality. As a minimum the SDF should comply with the SPLUMA requirements. The SPLUMA requirements are inclusive of Section 21 but not limited to section 21, as listed hereunder:

SECTION	SPLUMA REQUIREMENTS
21(a)	Give effect to the development principles and applicable norms and standards as set in chapter 2 of SPLUMA
21(b)	Include a written and spatial representation of a five year spatial development plan for the spatial form of the municipality
21(c)	Long Term Vision for 10-20 years for spatial growth
21(d)	Identify current and future significant structuring and restructuring elements of the spatial form of the municipality, including development corridors, activity spines and economic nodes where public policy and private investment will be prioritised.
21(e)	Include population growth estimates for the next five years.
21(f)	Include estimates of the demand for housing units across different socio economic categories and the planned location and density of future housing developments.
21(g)	Include estimates of economic activity and employment trends and locations in the municipal area for the next five years.
21(h)	Identify, quantify and provide location requirements of engineering infrastructure and services provision for existing and future development needs for the next five years.
21(i)	Identify the designated areas where national or provincial inclusionary housing policy may be applicable
21(j)	Include a strategic assessment of the environmental pressures and opportunities within the municipal area including the spatial location of environmental sensitivities, high potential agricultural land and (coastal access strips where applicable).
21(k)	Identify the designation of areas in the municipality where the incremental upgrading approaches to the development and regulation will be applicable.
21(l)	Identify the designation of areas in which more detailed local plans must be developed, and shortened land use development procedures may be applicable and land use schemes may be so amended
21(m)	Provide the spatial expression of the coordination, alignment and integration of

	sectoral policies of all municipal departments.
21(n)	Determination of Capital Expenditure Framework for municipality's development programmes depicted spatially
21(o)	Determine the purpose, desired impact and structure of the land use management scheme to apply in that municipal area
21(p)	Include an implementation plan comprising sectoral requirements including budgets and resources required for implementation; necessary amendments to a land use scheme; specification of institutional arrangements necessary for implementation; specification of implementation targets including dates and monitoring indicators; specification where necessary of any arrangements for partnerships in the implementation process.

The municipality's SDF is undergoing a review by the service provider and the inception report that outlines all the phases and timelines was presented to the municipality. Figure 1 below illustrate these phases as set out in the inception report.

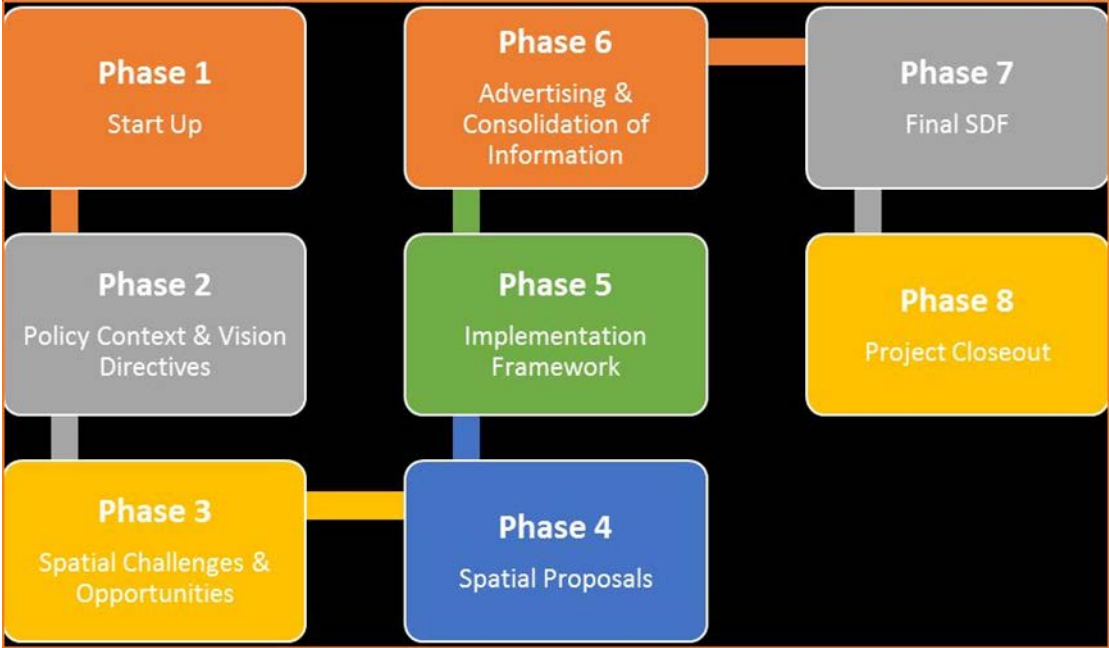

Figure 1: SDF review phases

9. IDP, Budget and SDF timelines

The timelines for the IDP, budget and SDF processes are attached as Annexures and provide specific activities that are going to be undertaken. These tables must not be read in isolation but they must be read within the context of the complementary functions that links them.

10. Conclusion

The IDP Process Plan shall inform and guide all municipal integrated development planning, budgeting and spatial planning processes. After approval by Council, this document shall be made public by putting it on the municipal website as well as placing hard copies in municipal offices and libraries.
