PART1

IN-YEAR REPORT

1.1. Mayors Report

The mayor considered the MFMA Section 52(d) report for the quarter under reporting, and the performance of the municipality against its budget in line with the approved budget adopted by Council. A detailed consideration by the mayor highlights the crucial areas pertaining to revenue generation capacity of the municipality, the expenditure patterns for both operational and capital funding. The prudent financial management assist the municipality in expending grant funding for capital infrastructure efficiently thereby becoming eligible for additional funding.

In terms of Section 54(1) of the MFMA the Mayor performed all the legislative requirements pertaining to this section to ensure that approved budget is implemented in accordance with the approved Service Delivery Budget Implementation Plan (SDBIP).

MBRR c-schedule summary

The C-schedule tables show the movement of revenue and expenditure since the beginning of the financial year. Narrations are detailed under each table; however, the significant attributes to revenue and expenditure line items are worth mentioning as follows:

- Total revenue – the C-schedule generates actual figures compared to budgeted figures. Total revenue amounts to R102 million rands with a variance of 14%.
- Bulk electricity – actual figure amounts to R12 million rands.
- Employee costs as contained in Part 2 report contribute notable expenditure at the end of the quarter however the C-schedule only shows R395 thousand as actual figures due to integration issues.

Capital Budget

Capital expenditure spending for the reporting period amounts to R12.4 million rands. Grant register is affixed to provide further details on capital expenditure and allocations as per DoRA.

Cash Flow

Budget cash flows are shown in Table C7 below of this report. Quarterly circular 71 calculations are done to ensure that current ratios information is obtained to monitor the liquidity of the municipality. Additionally, the investment register provides more information on the liquidity of the municipality in terms of available investments.

Risk Management – Financial risks

The municipality is cognisant of financial risk exposure and impact thereof. The identified risks range from weak financial management emanating from poor budgeting, growth in fruitless and wasteful expenditure, decreased revenue from non-payment of services due to unemployment of customers. Global economic outlook results in stagnant economic growth risk which impacts municipal fund allocations through DoRA.

Additionally, risks related to infrastructure costs contribute to variation orders and unfunded mandates due to social pressures. Natural disasters are guaranteed to exacerbate financial strain on the municipality. The municipality incorporates all the risks mentioned above in the risk registers and reviews are conducted consistently to ensure that all risks are attended on merit basis.

Mid-year assessment Review – adjustment budget recommendation

The mid-year assessment review will be done in January 2026.

Other matters

- **AFS and audit 2024-25**

The AFS were submitted on 31 August 2025, currently the audit is underway with 38 Request For Information (RFI) as on 11 October 2025 and no communication of finding (CoMAF) have been issued yet.

- **Electricity losses**

The municipality experienced electricity losses in the past years and the challenge is still insistent. The report on electricity losses is affixed on PART 2 of the report. The mitigation attempts are underway, including the initiative to appoint a service provider to implement an all-encompassing approach that spans from metering, auditing, tempering to revenue generation.

1.2. Resolutions

MFMA Section 52d quarterly report resolutions for period ending 30 September 2025

The MFMA Section 52d quarterly report is tabled before council for consideration by Council. Hereunder are the resolutions in terms of the Municipal Budget and Reporting Regulations Schedule-C (In Year Reporting) requirements for consideration by council:

- THAT the Council note the quarterly report on implementing of the budget and the financial affairs for the municipality referred to in Section (52d) MFMA.

- THAT the Council note the review by the Honourable Mayor as detailed in Mayors' report and be considered as the financial status of the municipality.
- THAT the Council note the mayor's quarterly report in terms of Section 30 MFMA MBRR Regulations, the report be placed on the municipality's website within five days of tabling of the report in the council.
- THAT the Council note the mayor's quarterly report in terms of Section 31(c) MFMA Regulations, be submitted to the National Treasury and the relevant provincial treasury within five days of tabling of the report in the council.

1.3. Executive Summary

Purpose

The fundamental purpose of this report is to comply with section 52(d) of the Municipal Finance Management Act (MFMA), by submission of a report to the Council on the implementation of the budget. The report provides a quarterly overview of the financial performance of the municipality, whilst it also provides a monitoring tool for Council on the non-financial indicators which is part of the service delivery and budget implementation plan. The report in alignment with each table as extracted from C-Schedule is providing corrective measures taken to ensure that budget is aligned to expenditure and revenue projection.

Municipality consolidated performance

This report provides details of budget implementation and budget monitoring thereof. Charts and tables extracted from the C-schedule are well detailed under monthly budget statement in year reporting thereby providing narration to crucial line items relating to revenue and expenditure. This report compares the actual results of operating income and expenditure as well as capital expenditure against budgeted income and expenditure.

The budget steering committee oversee that all departments, divisions and sections are engaged in the process of reviewing budget allocation.

In terms of S6(a) of MBRR there should be consistency in the base of measurement and accounting policies to ensure that policies underpinning AFS are the same as the policies used in the preparation and reporting during the in-year reporting. Statement of Financial Performance therefore is a consistent base of measurement of financial performance as informed by C-schedule Table C4 for the period under review.

Table C4 provide a consolidated municipality's performance in relation to approved annual budget and adjusted budget, thereby providing a sound financial management outlook of the municipality at this stage. Critical revenue sources such as property rates show a YTD actual figure of R12.7 million rands compared to original budget of

R62 million rands. The property rates revenue budget increased by R10 million owing to rebate reduction and tariff adjustments for property rates. Electricity revenue source year to date actual figure is R6.8 million rands results in -26% variance whilst the bulk expenditure year to date figure is R12 million rands.

Accurate employee related costs expenditure is shown in Part 2 of this document due to incomplete data transfer between the two different systems used by the municipality for financial management and payroll management. Additionally, Table C4 excerpt is shown hereunder to provide users of the report with high level overview of the current state of financial affairs of the municipality. Other revenue and expenditure items are outlined in detail and necessary narrative is provided per each table as extracted from the C-schedule report and additional reasons for variance is provided towards the end of this report.

Remedial steps to align projected expenditure and revenue

The mid-year review and assessment phase for this financial year and adjustment budget will provide a remedial or corrective step to align projections of revenue to actuals of expenditure and ensuring that revenue and expenditure remain within the municipality’s budget.

Potential impact of the national adjustment budget

National adjustment budget by National Treasury entails the opportunity to make permissible revisions to the national budget, thus additional allocations are made to fund disaster related projects. Furthermore, projects pertaining to reconstructing and rehabilitating of infrastructure damaged by floods within the KwaZulu Natal province and other provinces are given attention. The municipality expects to receive funds from the equitable share allocation (funding without conditions) as per the excerpt below.

The year-to-date actual revenue (excluding capital transfers and contributions) is R102 million rands.

The operating expenditure year to date is R32.7 million rands, this figure is under stated due to payroll transactions not captured on the system.

The year-to-date expenditure figure for employee costs and councillor allowances is supported by PART 2 payroll because the amount on the C-schedule is understated due to the information being not fully integrated with the financial system.

Table C2 provides the statement of financial performance by standard classification.

The table extract from the Cschedule contains no information.

Table C3: Monthly Budget Statement_ Financial Performance

The table extract from the Cschedule contains no information.

Table C4 Municipality Financial Performance

Table C4 provides information on the planned revenue and operational expenditures against the actual results for the period under reporting

This report analyses each major component under following headings.

- Revenue by Source
- Operational Expenditure by Type

TABLE C4: REVENUE BY SOURCE

Property rates

Property rates YTD actual for this month stands at R12.7 million rands, the comparison against the original budget of R62 million rands results in the variance of 18%.

Service charges electricity

The actual revenue from service charges electricity is R6.8 million rands, the comparison against the original budget of R37 million rands results in the variance of -26%.

Interest from Current and Non-Current Assets

The interest from current and non-current assets show the YTD actual figure of R638 thousand rands. The comparison against the original budget of R8.1 million rands results in the variance of -69%.

Transfers and subsidies

The transfers and subsidies allocations from the DoRA for the first tranches of the current year are received and reflected in the grant register on Part 2 of this report. The original budget amounts to R215 million rands while the YTD actual figure is R79.4 million rands hence the variance amounts to 47%.

TABLE C4: EXPENDITURE BY TYPE

Employee related costs

The employee related costs reflects R395 thousand rands as actual figure against the budgeted amount of R124.6 thereby resulting in a variance of -99%.

Remuneration of Councillor's

The YTD actual for remuneration of councillors reflect Rnil million rands. The approved original budget amounts to R 15.4 million rands hence the 100% variance.

Debt impairment

The YTD actuals reflects R0 amounts, the actuals will be prepared during the compilation of interim AFS. The budgeted figure in this regard is R0.

Depreciation & asset impairment

The YTD actuals reflect R0 amounts, the actuals will be prepared during the compilation of interim AFS. The budgeted figure in this regard is R37 million rands.

Bulk purchases

The YTD actual for electricity bulk purchase figure amounts to R12 million rands , the municipality pays the bulk account monthly and there are no interest charges on bulk account.

Total Ageing	R 124 044 995.90		August 2025 Billing	R 9 233 004.79
Total debtors' payments	R 3 155 356.28		September 2025 Payment:	R 3 155 356.28
	3%			34%

Cash collected under the reporting period amounts to R3.1 million rands resulting in collection rate of 3%. The comparison to the previous month billing against current month payments results to 34% collection rate, which is significantly above the norm of 95%.

DEBTOR'S RATIOS

Ratios table 2.1.3.

SEPTEMBER 2025 RATIOS		
(Gross Debtors Opening Balance + Billed Revenue - Gross Debtors Closing Balance - Bad Debts Written Off)/Billed Revenue x 100	35	Collection Rate
((Gross Debtors - Bad debt Provision)/ Actual Billed Revenue) x 365	2019.66	Net Debtors Days
(Period under review's Total Revenue - previous period's Total Revenue)/ previous period's Total Revenue) x 100	3.15	Revenue Growth (%)

Collection rates stand at 35% using the ratios as provided by National Treasury circular 71. Net debtors' days are increased to 2019.66 from 1 838.59 reported in the preceding month meaning that it takes the municipality above 5 years to collect the current debt, the debtors' days signal cash flow challenges to fund certain expenditure items.

INDIGENT DEBTORS' STATUS

The indigent debtor registration period started in February and closed in April. The total debtors that qualified for indigent debt relief rebates totals to 207. Physical verification was conducted. The rebates granted to eligible indigent debtors encompasses the 100% rebate on billed rates and services for the current year.

ELECTRICITY LOSSES

The electricity losses for the quarter under review amounts to R1.6 million rands which translate to 13.53%. The municipality through the management committee considered a decision to engage in a competitive bidding process in sourcing a service provider that will assist with all electricity challenges. Previously the municipality engaged in the RT29 transversal contract process, and unfortunately the application was decline by National Treasury.

<180 Days	R - R 88 585.64
>180 Days	R - R 531 513.84

The debtors above 90-day threshold pose the risk of creditors being flagged by Provincial Treasury in the Early Warning Signal (EWS) quarterly assessment. The municipality’s MFMA Section 71 report is assessed by the Provincial Treasury. The assessment performed in the last quarter indicated that there was one criterion which the municipality met to indicate financial problems.

The indicator being: Section 138(a) of the MFMA - Failure to make payments for amounts more than R1 million which are outstanding for longer than 90 days. The expenditure unit payment schedule and controls are implemented to ensure that only the compliant creditors are paid.

2.3 INVESTMENT PORTFOLIO, BANK BALANCE ANALYSIS

The investment register reflects investment state of the municipality. Operating and capital expenditure requires that the municipality withdraws from time to time from investments to ensure cashflow suffice hence the withdrawals history of R500 thousand rands. The investment balance amounts to R73.4 million rands.
