

NQUTHU MUNICIPALITY TARIFF OF CHARGE 2025/2026

FACTORS AFFECTING THE TARIFFS FOR THE BUDGET YEAR.

- 1) The municipality in preparation of its tariffs has taken CPI, inflation forecast (4.4%) into consideration.
- 2) Other charges are regulated i.e. electricity proposed tariffs based on Cost of Supply will increase by 11.80% pending approval from Nersa.
- 3) National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality. The Consumer Price Index (CPI) inflation is forecasted to be within the upper limit of the 3 to 6 per cent target band; therefore, municipalities are required to justify all increases in excess of the projected inflation target for 2025/26 in their budget narratives, and pay careful attention to the differential incidence of tariff increases across all consumer groups. In addition, municipalities should include a detail of their revenue growth assumptions for the different service charges in the budget narrative.
- 4) Safeguard the financial sustainability of the municipality and ensuring that tariff increases are locked in before the start of the financial year

TARIFFS FOR 2025/2026 FINANCIAL YEAR (RATEPAYERS AND CONSUMERS)
